- Getting Support

What's Included in Your Trial

Your download contains a complete trial package with:

- **PCBx3 Manager** Enterprise Edition (full functionality)
- Pre-configured sample company with demonstration data
- **Blake Installer Assistant** for automated setup
- 90-day full access to all features

Simple Installation Process

The Blake Installer Assistant handles all technical setup automatically:

1. **Download** the installation package
2. **Extract** the ZIP file contents to any location
3. **Run** Blake_Installer_Assistant.exe
4. **Follow** the guided setup process

The installer will automatically:

- Detect your system configuration
- Install all required components
- Set up appropriate folder permissions
- Create desktop shortcuts
- Optimize for your Office configuration (if present)

Opening the sample application for the first time

Once installation is complete:

- Double-click the **PCBx3 Manager** desktop icon
- The application will launch immediately
- No security warnings or manual configuration required

Trial Login Details

On the PCBx3 Manager Secure Login screen, enter:

- **Sign in to:** BuildCorp (Sample Company)
- **Username:** Bob
- **Password:** bob
- Click **Enter** to launch the Main Menu

*Thank you for downloading **PCBx3 Manager** from **Blake Developments**.*

We hope you enjoy exploring the comprehensive Project Operations and Field Services management capabilities. The sample company includes demonstration data across all modules so you can experience the full system functionality.

*Please don't hesitate to contact **Blake Developments** if you have any questions or would like to learn more about enterprise licensing options.*
