What's Included in Your Trial

Your download contains a complete trial package with:

- **iAM App** Business Edition (full functionality)
- Pre-configured sample company with demonstration data
- **Blake Installer Assistant** for automated setup
- 30-day full access to all features

Simple Installation Process

The Blake Installer Assistant handles all technical setup automatically:

1. **Download** the installation package
2. **Extract** the ZIP file contents to any location
3. **Run** Blake_Installer_Assistant.exe
4. **Follow** the guided setup process

The installer will automatically:

- Detect your system configuration
- Install all required components
- Set up appropriate folder permissions
- Create desktop shortcuts
- Optimize for your Office configuration (if present)

Opening the sample application for the first time

Once installation is complete:

- Double-click the **iAM App** desktop icon
- The application will launch immediately
- No security warnings or manual configuration required

Trial Login Details

On the **iAM App** Secure Login screen, enter:

- **Sign in to:** Blake Developments
- **Username:** Guest
- **Password:** guest
- Click **Enter** to launch the Main Menu

*Thank you for downloading **iAM App** from **Blake Developments**.*

We hope you enjoy experiencing the robust security and convenience of centralized account management. The trial includes sample data so you can explore all features for securing passwords, important accounts, and sensitive information.

*Please don't hesitate to contact **Blake Developments** if you have any questions or would like to learn more about enterprise licensing options.*
